Brian Burns has, for many years, been regarded as one of Texas' top performing songwriters, his work having been covered by a number of legendary artists. But in recent years Brian has emerged as one of Texas' most powerful and engaging performers. His songs explore both the poignant and the humorous sides of humanity, drawing out the things we've all felt and wish we could have said. The warmth, wit, and eclecticism of his performances captivate audiences night after night. Brian is a stellar singer/songwriter and guitarist, yet a decidedly down-to-earth performer. Brian performs an average of 300 shows a year including solo performances and songwriter shows with some of the nation's top artists.
